

Emergency medicine shift stipends

Did you know that resident physicians working an emergency medicine shift where one full hour worked on the shift occurs between midnight and 6 a.m. are eligible for a stipend at the same rate as a home call stipend? Resident physicians must ensure that the call schedule is up to-date, as stipends are claimed through submission of the stipend timesheet based on schedule information; the stipend timesheet is usually submitted by the call schedule/ER schedule administrator.

PARA resident physicians wishing to confirm their call stipend payments to-date should contact:

- Wendy Mitchell in Calgary (phone number 403 943 1253 or email WendyL.Mitchell@calgaryhealthregion.ca)
- Laura McMullen in Edmonton (phone number 780-735-0713, or e-mail Laura.McMullan@capitalhealth.ca)
- the PARA office
