

November 2007

Scheduling a Stat Day in Lieu

Residents who work the day of a Named holiday shall have another working day off with pay in lieu of the Named Holiday. This day shall be scheduled during that same rotation at the time the call schedule is made*. In the event that day off cannot be scheduled during the same rotation, it shall be added to the Resident's vacation allotment (Article 13.02).

*Program Directors are encouraged to ensure flexibility for residents scheduling their day in lieu. In order to facilitate this, residents who are entitled to a day in lieu are asked to request their chosen day off when the schedule is being developed, at or before the start of the rotation.
