

Dr. Clement Ho
Nominee for PARA VP External
PGY-3, Radiation Oncology
University of Calgary

In the past two years, I am honored to represent my colleagues on Profession Association of Resident Physicians of Alberta board of directors. I became passionate with the mission and values of our association and would like to take this one step further and run for the VP external affairs position.

VP external affairs plays a critical role as a liaison between Alberta Medical Association, Canadian Medical Association, and PARA. I believe it is crucial to lobby and advocate on behalf of Alberta resident physicians particularly on resident physician education, working condition optimization, patient safety promotion, and health policy implementation. My previous representation at both undergraduate and graduate levels have well prepared me to work with a diverse group in a professional manner. I am a strong communicator and management my time effectively to balance between my own medical duties and PARA responsibilities in the past two years. As a hard-working and dedicated individual, I look forward to representing you and address concerns of Alberta resident physicians to promote interaction at the provincial and national level.

Thank you for your consideration.

A brief biography (maximum 100 words)

I am a third year resident in Radiation Oncology at the University of Calgary. Born in Hong Kong and raised in Vancouver, I celebrate diversity and respect differences. At the University of British Columbia, I completed my undergraduate and graduate degrees as well as medical school. During that time, I actively participate in the pedagogical policy and representation for medical curriculum. I enjoy hiking and skiing, which Calgary offers close proximity at its fantastic outdoor playground.
