

White Rock-South Surrey Division of Family Practice

Locum Opportunities in White Rock-South Surrey **You'll Love it Here!**

The White Rock Division of Family Practice, a group of local physicians working together to improve primary care in our community, has several openings for short term and long term locum physicians in White Rock-South Surrey.

We are affiliated with Peace Arch Hospital, a community hospital where family physicians are involved in all aspects of patient care. We are looking for physicians who are interested in providing hospital care as part of their scope of practice. We have a close-knit medical community with collegial relationships between specialists and family physicians.

We have an active Division of Family Practice which provides support to family practitioners in our area, and develops and oversees innovative clinical programs in the hospital and community. All our practices use electronic medical records.

There are a variety of locum options available in our community. For example:

- Two maternity leave positions in small group practices
- One 3-6 month sick leave with possibility for extension
- Several 1-3 week part-time and full time vacancies in small to large practices
- Two 3-6 month part-time positions in small group practices
- Shifts in the enhanced hospital program, maternity clinic, youth clinic, and community Walk-in-Clinic are available in addition to community practice.

Hospital work is optional in some cases.

Incentives include:

- Guaranteed income
- No billing

- Attractive summer bonus
- Professional development and networking opportunities
- Accommodation assistance (free in physician homes in some cases)
- Mentorship
- Scheduling arranged for you
- Administrative support by program staff and physicians
- Skilled, experienced office staff.

There is generally a high demand for locums in small, medium, and large practices. Please contact the White Rock-South Surrey Division of Family Practice at wrssdfp@divisionsbc.ca for more information about available opportunities.
