

Congratulations Dr. Sankalp Bhavsar

PARA's *Resident Physician of the Month* for **August 2011**

Sankalp was born in India and grew up in Fredericton, New Brunswick. After doing his undergraduate studies in Biology-Chemistry at the University of New Brunswick, he obtained his medical degree from the University of Western Ontario. He then moved to Calgary for residency training. His hobbies include playing racquet sports and staying active in general. He also enjoys travelling, listening to music, and spending time with family and friends.

A few fellow resident physicians had this to say about Dr. Bhavsar.

"Sankalp sets an incredible example as a senior medicine resident leading the internal med teams. His patience, enthusiasm to teach and interpersonal skills make his team feel comfortable and perform at their best. He is very knowledgeable and is able to communicate complicated concepts to learners of all levels. I feel he is a great candidate for Resident of the Month and should be recognized for his great work.

"Our MTU team is nominating Sankalp because he was an integral part of making our rotation enjoyable. In particular, he made a special and very effective effort to teach the junior residents and medical students on the team. He was also very good at supporting our needs in caring for patients and making sure we made it to our teaching commitments.

"Sankalp was a fantastic senior resident. He seems to genuinely care for his patients and it is obvious that he loves what he does. I appreciated that he took so much time to teach the junior residents on such a busy service."

**NOMINATE someone you know for the
RESIDENT PHYSICIAN OF THE MONTH Award...**
