

# Congratulations Dr. Jean-Francois

## Ouellet

### PARA's *Resident Physician of the Month* for **November 2011**

In summary, my name is Jean-Francois Ouellet and I'm from a small town in Eastern Quebec called St-Pacome. I completed medical school in Laval University in Quebec City from 2000-2005. I then pursued a residency in General Surgery again in Laval University from 2005-2010. From July 2010-July 2011, I completed a Trauma Surgery Fellowship at the Foothills Medical Centre. I am currently completing a second surgical fellowship in Hepato-Pancreato-Biliary Surgery which will end in June 2012 after which I will return to Quebec City where I will work as a general surgeon with a special interest in trauma and hepato-pancreato-biliary surgery.

A fellow resident physician had this to say about Dr. Ouellet.

*"He hails from Quebec City and did his general surgery residency in Quebec. He moved to Calgary for fellowship training, and is about to finish his one year fellowship in trauma, but is following it up with a second fellowship in hepatobiliary surgery. JF - as he goes by - is definitely well loved on the trauma service. For this being my first rotation on the service, I found that JF was extremely patient and supportive of my learning despite leading an incredibly busy and full service. His knowledge is certainly evident in his logical and intelligent decision-making and problem-solving. As a learner it is nice to work with a senior trainee who is extremely accessible and takes the time to teach, even within the heat of the moment during incredibly acute situations as well. He views all learners with respect and allows them to own patient care decisions but never leaves us without support. JF has a well grounded personality and is fun to interact with! Thanks for all your hard work JF, you'll be missed by the trauma service!"*

**NOMINATE someone you know for the  
RESIDENT PHYSICIAN OF THE MONTH Award...**
