

RESIDENT PHYSICIAN OF THE MONTH

SEPTEMBER 2023

Dr. Brent Chambers

Dermatology
University of Alberta

I was born in St. Albert but then spent the first few years of my life in southern Alberta. Just as I was about to start grade school we moved back to St. Albert and that is where I grew up. I completed my undergraduate, graduate and medical school training all at the University of Alberta. I was fortunate enough to have the opportunity to do my residency training in Dermatology where I am currently in my final year.

A colleague had this to say about Dr. Chambers

Brent is our stellar chief resident physician this year. He is highly approachable and down to earth, while bringing a strong sense of leadership to our resident physician group. He is an amazing colleague and friend who shares his time generously and fiercely and advocates for the needs of our resident physicians. We are so lucky to have him as part of our resident physician group!
